Nailsea Walking, Wheeling and Cycling Action Plan

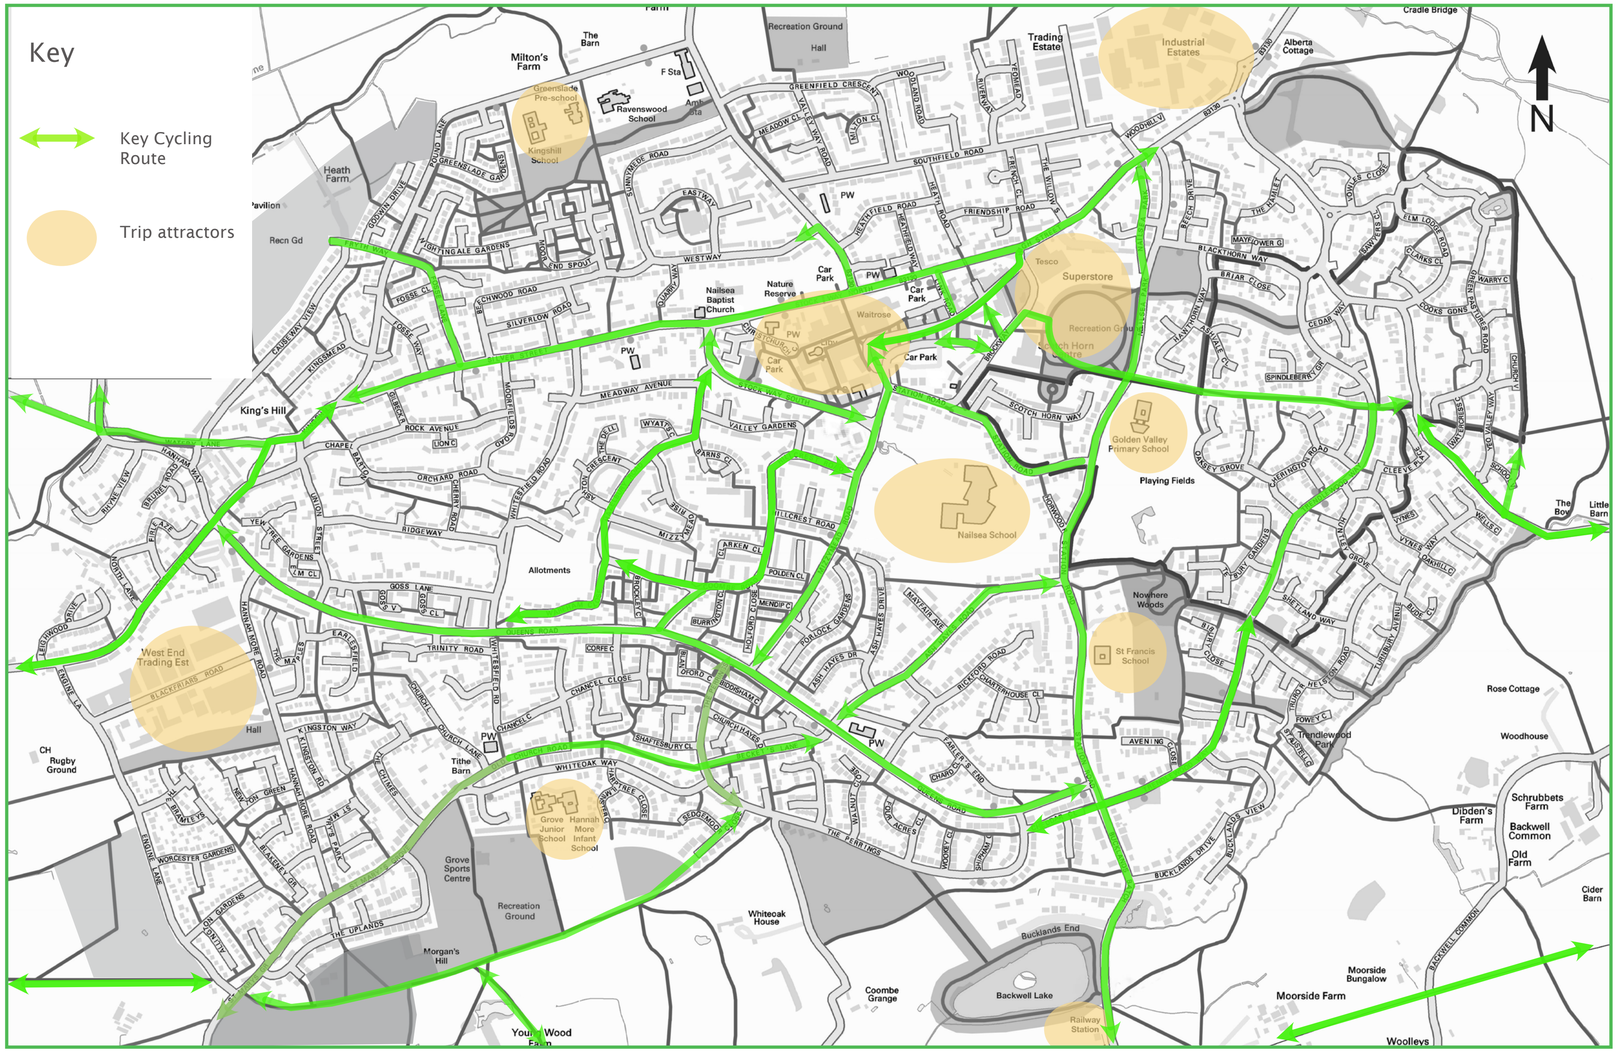

Tell us your priority cycle routes

North Somerset Council

This is the network that we identified with local stakeholders. Let us know if you think we are missing anything.

What would be your priorities? Stick a star on the areas that you think require urgent improvement.

If you have any additional comment or concerns write them on a sticker and place it on the side of the map.

Walking, wheeling and cycling in Nailsea

We are working with local people in Nailsea to plan how walking, wheeling and cycling routes could be improved and made more inclusive in the future.

The aim is to make it easier for people to get to school, work, the shops or travel for leisure.

We have identified a range of short, medium and long-term projects (that will require future funding).

We have worked with schools and key stakeholders to understand local concerns and aspirations and created a walking, wheeling and cycling network that addresses local needs.

We would now like Nailsea residents to review the initial plan to ensure we get priorities right for future funding opportunities.

Please have your say.
